

HOW DID WE DO TODAY? ... We would like to know!

My comment/suggestion/concern *My great grandmother Nancy Helen Dawson (with the backing of Mrs Robt Fisher) was the driving force behind the formation of the first Glanworth Library Association. In fact, the first library was based in her home with my Great Aunt Sadie Dawson as first librarian. (cont'd on back)*

Dept/Branch *'Save the Glanworth Library'* Date *Oct 3, 2011*

Address *26 HILLHEAD RD LONDON N6E 2P8*

However, it was the enthusiastic support of the Glanworth community that meant the library soon outgrew its home based operation and Glanworth was able to build the present library.

The local library in each community (no matter how small) has a powerful influence on the love of reading + learning a child develops and continues through life. Easy access, particularly to children and seniors, is important.

It appears obvious that the present Glanworth community still wants, supports + needs its local library. Therefore, instead of continuing to contribute to the London Public Library system, I plan to assist the Glanworth community in raising money to do the necessary repairs + upgrades to their library building.

I hope the London Library Board reconsiders + gives Glanworth the support it deserves.

(Falna + Pond Mills are my close libraries)
