

NOV 21 REC'D

Nov 21/11

Dear library board,

As a Christian person who as a user of the central library computers, I thank you very much for this service to us poorer people. I check and send e-mails there and search out sites because we cannot at this time afford ^{the} internet and my husband also gets information for his studying and writing. Ron counsels people who are stuck in pornography; people who use the library computers. It's hard to justify anyone wanting to put a temptation in front of people who are bound because of pornography.

We like the respect that is shown people who have no place to go and who enjoy connecting with others, and informing themselves, however we object to allowing people to access pornography at the libraries. This is an offense to God and very damaging to all the people involved.

There are no positive results but it can be demeaning to women and men and leads to a worsening of their lives. Help us help others in promoting useful and productive lives. Thank you very much,

Sincerely
Sue Dyles
