“Universal Access” means to provide access to services for all people to the greatest extent possible without the need for adaptation or specialized design.

POLICY STATEMENT:

It is the policy of London Public Library that the Library is committed to providing quality Library services that are accessible to all persons who wish to obtain and use Library services. The same principles articulated below apply to those persons with disabilities who are employed by the Library.

1. Guiding Principles

- 1.1 Library service is relevant, inclusive and responsive for all, including persons with disabilities. Each member of the community has an equal opportunity to access public library services.
- 1.2 Library services are provided in a manner that respects the dignity and independence of persons with disabilities.
- 1.3 The Library strives to provide “universal access” to library services and facilities for all people, to the greatest extent possible, without the need for adaptation or specialized design in order to integrate services to persons with disabilities. The Library will offer alternative customer service responses, including trained staff support, where necessary, so that persons with disabilities may obtain and use library services.

BACKGROUND:

The Accessibility for Ontarians with Disabilities Act (AODA, 2005) is a provincial act with the purpose of developing, implementing and enforcing accessibility standards in order to achieve accessibility for persons with disabilities with respect to goods, services, facilities, accommodation, employment, buildings, structures and premises.

Under the AODA, Ontario Regulation 429/07 entitled “Accessibility Standards for Customer Service” came into force on January 1, 2008. The Regulation establishes accessibility standards specific to customer service for public sector organizations and other persons or organizations which provide goods, services and facilities to members of the public or other third parties.

Accessibility for Users with Disabilities: Customer Service Standards

2. Library Services

- 2.1 All Library core services in all service locations are accessible by persons with disabilities.
- 2.2 The Library strives to provide Library services in a way that meets the specific needs of the person with disabilities and is convenient and accessible to the person with disabilities.

3. Communications with Persons with Disabilities

When communicating with a person with a disability, the Library will do so in a manner that takes into account the person's disability.

4. Temporary Service Disruptions

The Library will make reasonable effort to provide notice of planned or unplanned disruption of Library services to the public, including information about the reason for the disruption, its anticipated duration and a description of alternative facilities or service, if any, that may be available. In the case of unplanned temporary disruption, advance notice will not be possible.

5. Assistive Devices and other Measures that Assist with Accessibility

- 5.1 A person with a disability may provide his/her own assistive device for the purpose of obtaining or using Library services. In these situations, the Library may offer a person with a disability other measures to assist him or her in obtaining and using Library services, where the Library has such other measures available.

- 6.2 If it is not readily apparent that the animal is a service animal or a guide dog, Library staff may ask the person for confirmation of the animal's status, as outlined above.
- 6.3 It is the responsibility of the person with a disability to ensure that his or her service animal or guide dog is kept in control at all times.
